

Course Code: COMP3161

Course Name: Introduction to Database Management Systems

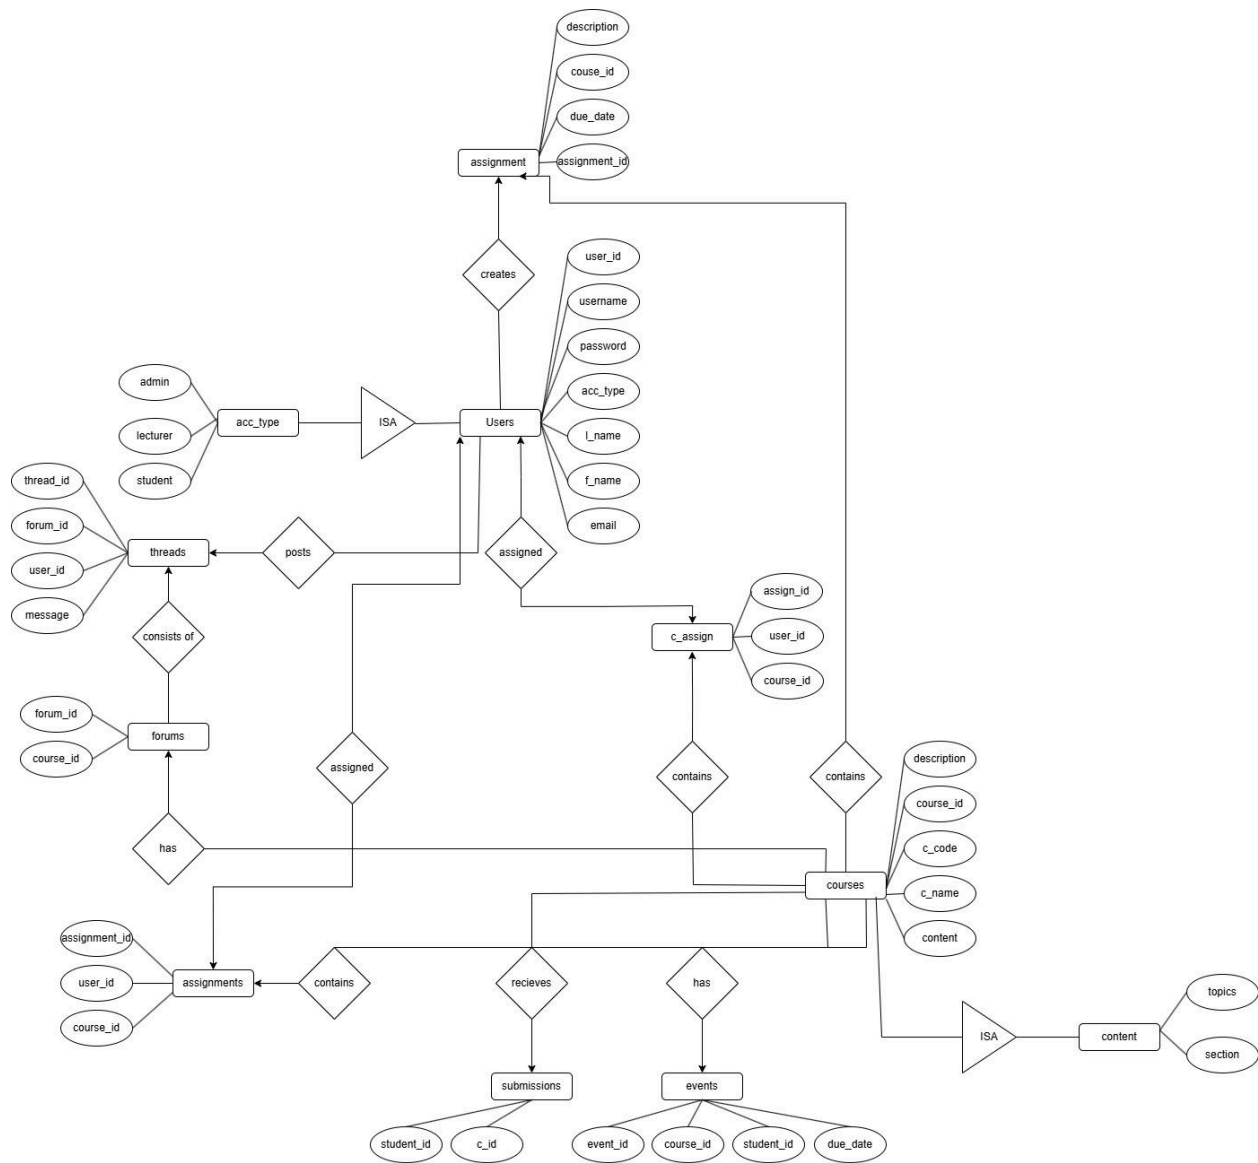

Group Project Documentation

Faculty of Science and Technology

Lecturer: Mr. Matthew Stone

Submission Date: May 17, 2026

Entity-Relationship Diagram

Database Schema

USERS

Field Name	Data Type	Key
user_id	INT	PK
username	VARCHAR	
password	VARCHAR	
acc_type	VARCHAR	
f_name	VARCHAR	
l_name	VARCHAR	
email	VARCHAR	

COURSES

Field Name	Data Type	Key
course_id	INT	PK
c_code	VARCHAR	
c_name	VARCHAR	
description	TEXT	
content	TEXT	

C_ASSIGN

Field Name	Data Type	Key
assign_id	INT	PK
user_id	INT	FK
course_id	INT	FK

FORUMS

Field Name	Data Type	Key
forum_id	INT	PK
course_id	INT	FK

THREADS

Field Name	Data Type	Key
thread_id	INT	PK
forum_id	INT	FK
user_id	INT	FK
message	TEXT	

ASSIGNMENTS

Field Name	Data Type	Key
assignment_id	INT	PK
user_id	INT	FK
course_id	INT	FK

ASSIGNMENT

Field Name	Data Type	Key
assignment_id	INT	PK
course_id	INT	FK
due_date	DATETIME	
description	TEXT	

SUBMISSIONS

Field Name	Data Type	Key
student_id	INT	FK
c_id	INT	FK

EVENTS

Field Name	Data Type	Key
event_id	INT	PK
course_id	INT	FK
student_id	INT	FK
due_date	DATETIME	

CONTENT

Field Name	Data Type	Key
section	VARCHAR	
topics	VARCHAR	

Team Roles & Contributions

Team Members	ID Numbers	Roles	Contributions
Marissa O'Meally	620163584	Project Owner & Backend API Developer	Implemented APIs for: - Register for Course - Retrieve Members - Retrieve Calendar Events - Create Calendar Events Tested the Postman collection
Gavril Williams	620160743	Backend API Developer & Integration tester	Implemented APIs related to: - Forums - Discussion Thread - Course Content - Assignments - Reports Created and tested the Postman collection
Rheanna Harrison	620154126	Backend API Developer	Implemented APIs for: - Register Users - User Login - Create Course - Retrieve Course
Stephan McFarlane	620149725	ERD & SQL Development	Designed the entity relationship diagram as well as developed the SQL.
Javaughn Sherman	620130006	ERD & SQL data seeding	Designed the entity relationship diagram as well as provided the SQL with the necessary data.
